

GROWTH MINDSET

DEVELOPING RESILIENT LEARNERS

- Help your students develop a growth mindset
- Instill grit and resilience in your students
- Explore the latest growth mindset research
- Developing a growth mindset culture
- Practical implementation strategies

Bradley Busch is a HCPC registered Psychologist. With extensive experience working in schools, he is a leading expert at helping students develop their mindset. Outside of education, Bradley has also helped members of Team GB win medals at London 2012 and Rio 2016.

Delve into the latest research surrounding Growth Mindset and Resilience. Discuss strategies to help you and your students develop growth mindsets and metacognition.

Further develop your mindset to help manage teaching challenges.

Practical suggestions to help you guide learners away from fixed mindsets.

The link between praise, feedback and mindset in the classroom.

Potential obstacles and how to overcome them when implementing Growth Mindset strategies.

Tips to use to help your students become more resilient learners.

COURSE DATES & LOCATIONS

21st June 2017 London

“Firstly, thank you very much indeed Bradley for the stimulating and entertaining presentation you gave today. Super – it went down really well with the staff.”

KM - Head of Junior School

“It was fun and useful. Growth Mindset is already making its way into our staff development.”

RS – Head of Sixth Form

“Both tutors spoke with confidence and passion and had obvious experience in the industry.”

PM - Teacher

“Just to inform you, and please pass this on to Bradley, the session on Wednesday that he delivered was outstanding!”

SN - Director of Upper School
