

# METACOGNITION

## DEVELOPING SELF-REGULATED LEARNERS

- **Understanding Metacognition - Dispelling Myths**
- **Exploring How Students Learn Effectively**
- **Creating an Environment That Develops Independent Learning**
- **Strategies That Promote Deeper Understanding and Enhanced Learning**

Bradley Busch is a HPCP registered Psychologist. With extensive experience working in schools, he is a leading expert on the science of learning. Outside of education, Bradley has also helped members of Team GB win medals at London 2012 and Rio 2016.

An evidence-based approach to improving metacognition.

Understanding and using retrieval practice, spacing, interleaving, and dual coding.

Learn practical techniques you can start using straight away, such as Modelling Your Thinking and Metacognitive Questions.

Enhance students motivation, self-awareness, and self-management.
